8 Residences

3132 Villas are located in the serene and highly sought after Asokoro district. Asokoro living is the epitome of urban luxury living in modern Abuja suburbia. The 5 bedroom villas have been designed on a 3,209sm site with unmatched panoramic views of the city and complimentary recreational spaces including a swimming pool, gym and services.

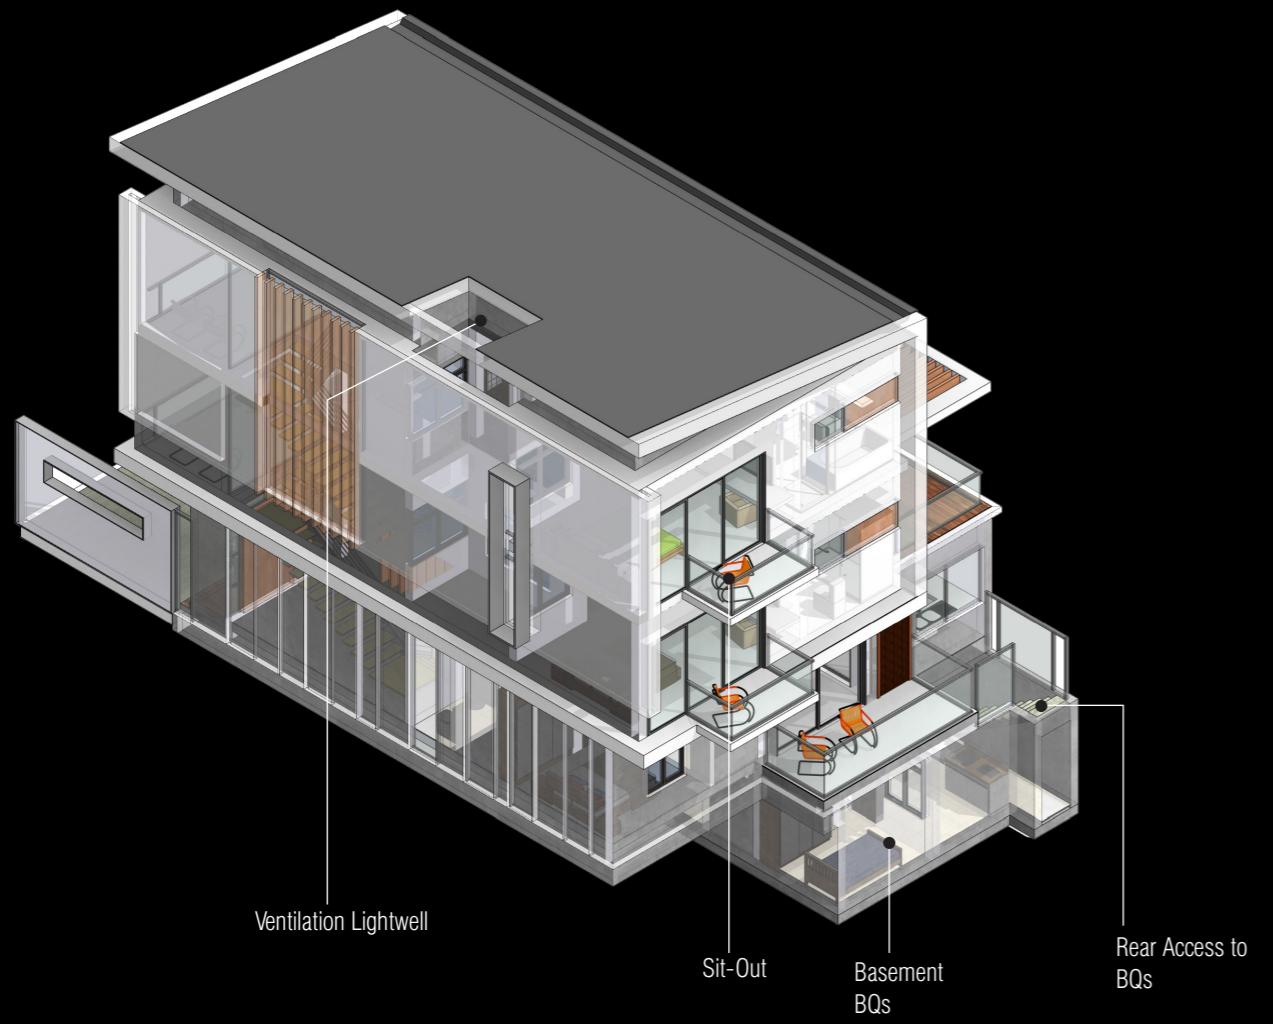

The programme is an infusion of the live+play attitude in the greatly residential community with a different kind of design sensibility in terms of architectural resolution and site optimization. These villas are a lifestyle statement.

Urban Luxury

The challenge of the design was to create an architecture that secures some degree of exclusivity to individual villas yet cohesive as a whole. This is not only played out with the bold rectilinear envelope enclosing each villa, it is also visible on the site layout with partition walls between units that delineate individual entrances and parking. The massing blends the entire programme in a formal, structural and aesthetic poetic.

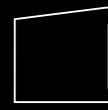

- 8 nos 5 bedroom units at 445m² each
- 3 nos lounges per unit
- 4 nos parking min. per unit
- Gymnasium
- Club House
- Infinity Swimming Pool
- Home automation
- Metered cooking gas supply
